## OUR TRIP TO THE CENTENNIAL.

We left home on the 20th ult., to at-

tend the Centennial Exhibition.

We arrived at Cincinnati about 7 o'clock

P. M. purchased tickets to Philadel-

phia via the Baltimore and Ohio Rail-

road, and obtained sleeping sections

for our party of eleven and left on the

train that night at 10:45 P. M. Some

of the party complained of obtaining

but little sleep, but we slept well dur-

ing the night, and felt greatly re-

freshened next morning, and was pre-

pared to enjoy the grand scenery we

passed during the day, especially was

this the case on Cheat River. At

Deer Park we stopped for two hours,

waiting for repairs on the road about

ten miles ahead of us, but the

conductor learning that it could

not be completed that day, the

train moved forward and we were in-

vited when we arrived at the wash-

ing out on the road to get out and walk

down a steep hill and up another

one to take a car on the other side.

At Deer Park the Baltimore and

Ohio Railroad have erected a large

building and it has become a favorite

resort for visitors during the summer

season. The building has 285 rooms

and had at one time last summer 1,000

guests. The train was due at Washing-

ton on the night of the 21st at 9 o'clock,

but it did not arrive there until 1

o'clock on the morning of the 22d. Judge

Gist, the accommodating ex-citizen of

this city met us at the depot at Wash-

ington, and showed us around the

city, during our stay there. Hon. G. M.

Adams and Judge Green Adams, also

lent their assistance in showing us

through the Capital. On the 23rd we

took a trip to Mt. Vernon. There is

a steamer leaves Washington every

day, except Sunday, at 10 o'clock, A.

M., and returns to Washington at 4

o'clock P. M. We passed several places

of interest from Washington to Mount

Vernon. We met a great many vis-

itors from different parts of this State

on the boat who were on their way

to and from the Centennial, but wished

to visit the tomb of Washington dur-

ing their trip of sight-seeing. We

were met at the landing by the gen-

tlemenly guide, who preceded us and

explained the different points of inter-

est we passed. The first place the

guide halted was at the Tomb of Wash-

ington, where rest the remains of Gen-

eral Washington and his wife and

about thirty of the family relatives.

Every gentleman removed his hat

while the guide gave an account of the

removal of the remains into this vault.

We were next shown through the

building, and the history of each im-

part by the guide. In the main

hall of the building we saw the "Key

of the Bastille," which is in a glass

box where it was placed by General

Washington, on a nail from which it

has never been removed. In the room

where Washington died is a newpa-

per in a frame which was published in

Alexandria at that time, and contained

the first announcement of Washing-

ton's death. There are several arti-

cles of furniture in the room which

the guide assured us were used by

Washington, but the bedstead upon

which he died was cut to pieces by

the relic hunters, and a fac simile now

stands in the same spot. There is a

large magnolia tree in the yard, which

is said to be the only tree on the

premises planted by Washington.

The leaves that fall from this tree are

picked up every morning, and one is

presented to each lady visitor. We

got a few pebbles from the hill near

the old tomb, and some Spanish chest

nuts from the yard, but hearing the

sound of the whistle at the landing,

we at once hastened to the boat to

take our trip back to Washington

city. We left that city on the 24th,

stopped in Baltimore half a day, vis-

ited the Peabody Institute, Washing-

ton Monument, Mt. Vernon Church,

(Methodist), and some other places

of interest, and arrived in Philadelphia

on the morning of the 25th. After that

we kept no dates or notes. We were

totally amazed and confused and are

unable to report but little of what we

saw at the Centennial. For six days

we visited the Centennial, but saw too

much to attempt to describe it. We

saw almost every thing that grows or

is manufactured, at this wonderful

show. The main building had the most

attraction for us. In it we saw the in-

dustries of every nation represented.

The United States is represented in

the rich silver ware, jewels, chemicals,

furniture and textile fabrics. We no-

ticed at one jewelry stand three small

stones with the prices marked on

them respectively \$12,000, \$10,000 and

\$5,000.

In the Mexican department the

most noticeable are the immense cas-

ings of silver, and the leather and

woolen goods.

Brazil has beautiful furniture and jewelry. The watches, lace curtains and carved wood work in the Switzer-land department; the bronzes, silks, ladies dresses, and a large number of fancy articles in the France depart-ment; the silverware and needlework of England; the shawls and embroide-ered work of India; the furs of Nor-way, the carved woodwork, mosaics, corals and jewelry of Italy; the carv-ings in wood and ivory, (especially a fine carved bedstead) in the China de-partment, with the Chinese in their peculiar dress to show just their ware are all places of interest.

Japan has a great amount of bronzes, embroidered and lacquered work. Egypt has gorgeous embroideries. Turkey has the largest amount of pipes, curious pottery, and many ar-ticles of interest.

Russia presents a large display of furs and vestures of gold and silver. Germany has the best exhibit of pi-naos.

There are other nations represent-ed, showing the enterprise and indus-try of their inhabitants. We spent one day in the art gallery and the an-nex, and saw paintings, and other works of art the finest, we suppose, in the world. The United States, France, Italy, Germany, Mexico, Great Britan, and other nations have the works of their best artists, but we must confess some of them seemed quite com-mon-place. We spent one day in visit-ing the different State departments, and the remainder of the time we devoted in visiting Machinery, Agricultural, Horticultural and Floral Halls, Wo-men's Pavilion, Pomological and Brewers buildings.

Kansas and Colorado have made the finest display of their agricultural and mineral wealth of any States repre-sented.

Kentucky has no building, but has good display of minerals. The largest piece of cannon coal we saw at the Centennial was from Breckinridge county. Mr. Pieratt, of Morgan county, had a fine piece of cannon coal, which we considered superior to any coal at the exhibition.

Every department is worth visit-ing, and to give anything like the proper time to each building would require about three or four weeks. We were there on Pennsylvania day, and saw the greatest crowd of people ever as-ssembled on this continent. It was a beautiful day, and the balmy at-mosphere and the dazzling sun were propitious for unbounded enjoyment. It was a holiday legalized by special proclamation of the Governor of the great State of Pennsylvania, and busi-ness was suspended throughout the State and they came from far and near to visit the Centennial. Not only from Pennsylvania was the crowd great, but from other States and nations, could there be seen the mighty throng of people which filled almost every building and avenue in the Centennial grounds, Governor Hartranft and others spoke, but we were unable to get near enough to hear a single word. Thou-sands brought their luncheon with them and ate it, but those who had not exercised that precaution wended their way to the different restaurants at noon to partake of something to cheer the inner man, but at many of them they found but little to eat. The gates showed over a quarter of a mil-lion of paying visitors to the grounds on that day. In taking a survey from an eminence where we could see over a large portion of the ground, it seem-ed like one solid mass of people jam-med on the walks of the grounds.

We attempted that day several times to get into the New England Kitchen, but it was so crowded that it was impossible to gain admittance.

We feel that we are incapable to give anything like a perfect idea of the vast amount to be seen at the ex-hibition, but hope every one of our readers who has not gone to the ex-hibition, and can possibly do so, will avail themselves during the few re-maining weeks that it lasts. There is a large magnolia tree in the yard, which is said to be the only tree on the premises planted by Washington. The leaves that fall from this tree are picked up every morning, and one is presented to each lady visitor. We got a few pebbles from the hill near the old tomb, and some Spanish chest nuts from the yard, but hearing the sound of the whistle at the landing, we at once hastened to the boat to take our trip back to Washington city. We left that city on the 24th, stopped in Baltimore half a day, vis-ited the Peabody Institute, Washing-ton Monument, Mt. In the Mexican department the most noticeable are the immense cas-ings of silver, and the leather and woolen goods.

From Philadelphia we went to New York via of Long Branch, stopping there five hours, where for the first time in our life we saw the Ocean

We gathered some shells from the beach, took a ride in the city passing President Grant's residence and other handsome buildings and visited the parks. The clerk of the weather seemed to have entered into a special contract with "Old Pros" for the day, and everything was favorable for our enjoyment at Long Branch. From Long Branch we went to Sandy Hook where we took a vessel for New York. At New York we saw Governor Til-den reviewing the first division of the State troops, visited the large A. T. Stewart, retail establishment; the Central Park, and Booth's Theater at night where we saw Sardapanalus played. From New York we took a boat, to Albany, and had a fine view of the scenery on the Hudson. Be-sides the grand palisades and high-lands we passed, there are many points of historical and romantic in-terest. From Albany to Niagara we traveled most of the way in the night and saw but little of the country. At Niagara the picture our imagination had drawn of the grandeur and sub-limity of the Falls were fully realized, and we felt that it was even greater than we expected. There was but one place that we were disappointed, and that was the whirlpools which we felt did not repay us for the time and money spent in visiting it. After seeing most of the points of interest on the American side, we crossed the new suspension bridge to the Canada side. This bridge is said to be 190 feet above the surface of the Niagara. A much better view can be obtained of the Falls on the Canada side. Neither well studied phrases, nor carefully-selected words could convey the feelings of admiration on beholding the grand work of nature, as presented to our minds on seeing the Niagara Falls. At almost every place of interest at the Falls, there are stores containing fancy goods and the owners are cer-tain to invite visitors in to look at them and if possible sell some of them. We remained at Niagara about 26 hours and left at noon on last Fri-day for home, where we arrived on Saturday evening.

As an evidence of the fact that it is Republicans who practice intima-dation in the South, and in proof of the charge that all the troubles be-tween the races in the Southern States are brought about by designing Re-publican politicians who use the ne-groes as their tools, the New York Herald, is conclusive: "In every Southern State the colored voters are joining Tilden and Hendricks Clubs. In Alabama and Arkansas they went peacefully to the polls and voted the Democratic ticket by thousands. It is evident that the negroes have learned, that under Democratic rule, as in Georgia, Arkansas and Alabama, their property is protected, and their rights guarded, while in those States under Radical rule, they are used by political adventurers for their own ends. They are therefore joining the Democratic party in large numbers, in every Southern State. The Re-publican leaders have become alarmed at this defection, and the order has gone forth to stop it, by bloodshed if ne-cessary. Attorney General Taft has issued an order intended to convince the negroes of the power of the Ad-ministration to enforce its will. Twenty thousand stand of arms are sent to Charleston. The riot of yester-day is the first result of this policy. Every colored Democrat is a marked man, and threatened with death. The National Democratic Committee are in the daily receipt of letters from colored men in the South saying that they are even refused communion in their churches if they vote the Demo-cratic ticket. One colored man writes: 'We have to be very secret; if it were known that we were Democ-rats, our wives would refuse to live with us. Negro Democratic speakers are threatened with assassination, and a reign of terror is inaugurated, with the deliberate purpose of checking the expression of Democratic senti-ment among the negroes. That there is no conflict between the negro and white races in the South, except such as is created and kept alive by Repub-licans for political purposes, is abso-lutely proven by the harmony exist-ing between the two races wherever the Democracy is in the ascendancy.'

Private advices from Mississippi are encouraging to the Democracy. The party of Reform hope to carry the State by seventy five thousand majority. Since the Democracy won a victory in the State some time ago most all of the Republican carpet bag-vultures have left the State, and thousands of colored men, we are told, will hereafter vote for their own in-terests and the Democratic party can-didates.

The Radicals made a great noise about the removal of Union soldiers and the substitution of Con-federates for positions in the House of Representatives. The fact is that the Democrats employed more Union soldiers than the Republicans did. Out of 232 appointments there were only 28 ex-Confederates. This is proven by the statement of Mr. Adams, clerk of the House, who gave a full list of the names and the politics of each.

The business men of the North are beginning to think that it doesn't pay to abuse the Southern people vir-tuotively and eternally. The En-quirer says it is too much like a mor-tar-blackguarding and kicking his best man over.

## THE ELECTIONS.

The news from the elections held on Tuesday in Ohio, Indiana and West Virginia, is necessarily very meager. After our paper had gone to press we received the following dispatch, which is all the news we have up to ten o'clock Wednesday morning.

LOUISVILLE, Ky., Oct. 11.  
J. R. GARRETT.—Indications are that Indiana has gone Democratic by five thousand and Ohio will be close. Nothing from West Virginia.

COURIER JOURNAL.

Judge A. R. Boone was unani-mously re-nominated for Congress by the Democrats of the First district at Paducah Wednesday. The conven-tion was an unusually harmonious one. The names of Trimble and Cross-land were withdrawn before the result of the first ballot was announced, and Judge Boone's nomination was made unanimous. Every county in the dis-trict was represented except Ballard, Henry Honston, Esq., is the Republi-can nominee, and Oscar Turner will run as an independent candidate. Boone defeated both Turner and Pick-ett two years ago.

A man by the name of LeRoy, living in Wisconsin, threatened to sue Hayes, the Radical candidate for President, for \$1,000, which LeRoy's son, while in the army, gave to Hayes for safe keeping. Hayes first denied knowing the boy, then admit-ted that he did know him, but said he got no money from him. Then after being pressed hard by LeRoy with proof, admitted that he got about \$100 from him but gave it back to him. The proof is abundant that Hayes did get it. Radicals are pretty folks to be talking about Tilden's false in-come.

The packed jury which sat on the trial of Babcock brought in a ver-dict not guilty last Saturday night after remaining out two hours. Boss Shepherd who, with other accomplices of Babcock, stayed with him in the Court-room during the absence of the jury, commenced a loud clapping of hands on the announcement of the verdict. The whole party then escort-ed Babcock in triumph to his home.

The Radicals have nominated candidates for Congress, or called conventions for that purpose, in every district but this, the 7th. This is a confession of the strength of Cap-tain Blackburn, and the names could be indicated in any other form. Not-withstanding they speak of him as the "Juvenile Joseph," he is good for five thousand majority over any man they could put forth, and there seems to be no one who desires martyrdom—neither the graceful Goodloe, nor the sweeping Swope. They can't even "care up an invincible Independent. Sad!"—[Frankfort Yeoman.]

Rev. Thomas P. Dudley, of Fayette, one of the most eminent Ba-ptist ministers of Kentucky, can show a record of continuous ministerial service which will challenge compar-ison with that of any other clergy-man in any country. He has been preaching to Bryant's Station Church for fifty-five years; to Elizabeth, fifty-three years; to Mt. Carmel, forty-five years, and to Georgetown, forty-four years. His father, Rev. Ambrose Dudley, was the pastor at Bryant's Station Church—one of the oldest in the West—for forty years before him, so that the two have ministered to that congregation for ninety-five years. Although in his eighty-fifth year, he is hale and vigorous, and at-tends to his churches as regularly as forty years ago, preaching twice a month to each church, they being two or twelve miles apart, attending calls, visiting the sick of his flock, preach-ing funerals, and solemnizing mar-riages.—[Frankfort Yeoman.]

Hon. J. C. S. Blackburn, member of Congress from the Lexington district, will address the people of Montgomery county at the court house in this city on Friday evening, October 13th. Mr. Blackburn is one of the most popular orators in the State, and our people should give him a rousing audience. The ladies are especially invited to attend.

## Death of T. H. Probert.

We announce with the keenest grief and most poignant sorrow, the death of Thomas H. Probert. After a protracted sickness, he sank peacefully to his rest on last Monday afternoon, leaving a vacancy about his fireside that cannot be filled, and a general sense of loss in the community where he lived. For many years he was jailer of Montgomery county, and was in office when he died. He was noted for the strict and faithful discharge of his official duties and for his unvarying kindness to the prisoners committed to his charge. Whatever faults he had—and he was but human—now lie buried with him in the grave, and we give him that charity that we too may ask when our race is run, and when we drop from the ranks of the living. He had many virtues and these we delight to remember. Losing his father in early life, he, by his toil and labor, took care of his mother and sisters, and through long and weary days of poverty and anxiety ministered to their support. He fought the hard fight for bread and raiment and shelter, and if he sometimes grew callous in the conflict, towards the world, his heart was always warm and tender towards those he loved. In his friendships, he was constant and unselfish. He could not do too much for those who had befriended him, and never deserted them in their extremity. Under a rough exterior, he carried a heart as generous and true as ever beat in a human bosom; a nature ardent, impulsive and sympathetic; a spirit never unmindful of a favor, open, grateful and courteous. No eye grew wet sooner than his over a tale of distress, and no hand was freer than his in dispensing charity to those in want. In temper he was quick, but forgiving, cherishing no malice. He was liberal and free handed to a fault; the ready helper of the poor; and those who had aided him in his troubles and stood by him in the dark days could lay no burden on him that he would not willingly and cheerfully bear. The rough warfare of his life never effaced his cheerfulness or dimmed the light of his genial humor. We met him in many of the ways and walks of life and learned to know the good that was in him. We shall miss him, but shall remember and cherish the true manhood that was his, forgetting and forgiving and leaving to the measureless mercy of our Savior, the human weakness that beset him.

## B. W. Rose's New Clothing Store.

Our energetic friend is on his feet again, and has just opened at his old stand, corner Main and Broadway, a large and complete stock of stylish custom-made Clothing, Hats, Boots, Shoes, Gent's Furnishing Goods, &c. His stock has been selected with care and with an eye to the wants of the people of this section, and on examination we found the prices to be very low. Mr. Rose is "the boss" on boots and shoes, as the following prices will show:

Ladies custom-made Pebble Goat side or front face shoes \$2.25 per pair. Children's shoes 60c. and upward. Child's boots, \$1.25. Men's boots, \$2.50. Full stock Bachelor boots, \$3.00. Full stock Brogans, \$1.25. Overcoats, \$3.00; Jeans Pants, \$1.50. Suits (coat, pants and vest), for men \$7.50, and all other goods in proportion.

The Tilden, Hendricks and Reform club of this city raised a pole in this city on last Monday afternoon. Col. L. B. Grigsby of Winchester made an able speech to the club at the court house on Monday evening. He had a well filled house, who listened attentively to his telling speech as he exposed the radical corruptions. Col. Grigsby was an officer of the Federal army, and his speeches will do much good for the cause of reform wherever he speaks. We hope he can be induced to give a portion of his time in discussing the great principles of the party in this Congressional district before the election.

**NEW DRY GOODS HOUSE.**—The attention of our readers is called to the advertisement of Messrs. D. R. Creegan & Co., to be found in our columns to-day. Messrs. Creegan & Co., have recently come amongst us and opened in Tenney's building on Main street, near the court house, the largest and most attractive stock of goods we have ever seen in Mt. Sterling. Their stock embraces all the late styles of ladies dress goods, boots, shoes, notions, and, in fact, everything usually found in a first class dry goods store. Their goods were bought in New York before the recent advance, and they propose to give their customers the advantages of their low purchases. The members of the firm are clever, energetic, thorough-going business men, and we advise our readers to examine their goods and prices before buying elsewhere.

Mr. James Voris, the popular and accommodating young salesman, has been employed by this firm and will be pleased to receive his old friends and show them the immense stock of good in this house.

**Finest and largest stock of Ladies and Mises Felt Skirts, Hosiery, Nubias, Sacques, Hoods, Caps, Shawls, Fascinators, Saphyrs, German Town Yarns, Fancy Baskets, Traveling Bags, Handsome Jewelry, Neckties, Silk and Linen Handkerchiefs, &c., of every description &c., at T. P. Martin & Co's.**

## Grand Mountain Barbecue!

## TILDEN, HENDRICKS AND REFORM!

The Democrats of the Ninth Congressional District will have an old-fashioned Barbecue at Hazel Green, Wolfe county, on THURSDAY, OCTOBER 26th, 1876. Hon. D. W. Voorhees, Gov. McCreery, Gen. John S. Williams, Hon. Isaac Caldwell, Hon. Ed. Marshall, Hon. Jo. Blackburn, Hon. Ed. W. Turner, Col. W. C. P. Breckinridge, Hon. J. Proctor Knott, Gen. John B. Huston, Hon. G. M. Adams, Hon. D. Y. Lytle, Hon. John E. Cooper, Hon. A. L. Martin, Hon. John Dishman and other distinguished speakers have been invited and are expected to be present. The Mt. Sterling Brass Band will be present and enliven the occasion with its soul-stirring music. Everybody is invited, and the public is assured that there will be PLENTY TO EAT and a good time for all who attend. All opponents of Radicalism in the Ninth District are especially invited to turn out and give one day to the cause of Honesty and Reform, and the Grand Old Democratic Party.

We refer our readers to the advertisement of J. Dinkelspiel to be found in another column. Mr. Dinkelspiel has been engaged in selling goods in this city for several years, and is a liberal dealer and always sells his goods at the lowest margin. He has a complete stock of clothing, and can furnish them at prices to suit any person who may wish anything in his line. Call and examine his stock before buying elsewhere.

Don't forget that this is the month to set out fruit trees, grape vines, &c. I have now on hand some of the finest varieties of early and late grapes, that have never rotted or mildewed, have always ripened the fruit, and the vines are perfectly hardy and healthy.

The White Hall, very early, purple, \$1 for 1 year vines.

The Lady, very early, white, \$1 for 1 year vines.

The Champion, very early, black, 50c. for 1 year vines.

Black Deliance, 2 weeks later than the Concord, and of much better quality, \$1 for 1 year vines.

Rogers' Hybrid, 50c. each.

Cynthia, Norton's Virginia and Herman, late, and good keepers, 50c. for 2 year vines.

The Martha, fine white grape, 50c. for 2 year vines.

Monarch of the West and Col. Cheney Strawberry plants, \$2 per 100.

Late Kentucky, Brooks' Seedling, early, \$1 per 100.

Amazon Raspberry plants, \$2 per dozen.

Turner, Harding and Clark Raspberry plants, \$1 per dozen.

Mammoth Cluster 50c. per dozen.

## JOHN MAUPIN.

**FINE MULES.**—Our friend Lewis Lane sold, a few days ago, a pair of mules to Jo. Stephens, of Bath, for \$425. He sold four mules, including the above, for \$750. Lew. always has a few good ones, and his long eared stock always commands top prices.

The colored people will hold their fair on Wednesday and Thursday of next week on the grounds of Mr. Ringo near this city. Their arrangements are all completed, and they are expecting a good time.

Business must be dull in Lexington, or else exceedingly lively. Anderson & McCann are selling Tin Sats (tub, jar and water carrier) at \$2.50 per set; Decorated Chamber Sets, \$5; French China Dining Plates \$3.50 per set; Best quality of Plated Knives at \$3 and \$5.50 per dozen; Nice glass Tumblers, 50c. per dozen; Tea Trays, Lamps, Hall Lights, Coal Hods and Vases, in fact all their goods are being sold at former wholesale prices.

Mr. J. G. Trimble brought to our office on Friday last, a monster sweet potato, raised by Mr. Hollis Gibbs, at Hazel Green, in Wolfe county. The potato weighed 8 pounds and 9 ounces. Mr. Gibbs informs Mr. Trimble there were four others in the hill from which this monster was taken, which weighed 9 pounds in the aggregate. Who can beat it?

"I can," says John Ragan. Mr. Ragan brought to our office on Saturday the largest potato we have ever seen. It measured eleven inches in length, and 19 inches in circumference, and weighed 11½ pounds. He says he has plenty as big as the Wolfe county monster, which he calls "small potatoes."

Capt. W. Tom Havens, of West Liberty, one of the liveliest Democrats in this district, has been in the city for a few days. He gives a glowing account of the Democratic prospects in his section. He has a host of friends in Montgomery, who are always glad to see him.

Walker C. Graves, Esq., who has been stumpng some of the counties of this district in behalf of Tilden, Hendricks and Turner, returned to this city on Thursday last. He says the Democrats are astride in the section which he visited, and they propose to give a good account of themselves at the November election.

A correspondent of the Boyd Democrat says the Grangers of Pike county met in convention recently to "elect" for President in November. Representatives from nine granges were present. The following novel resolution was adopted:

Resolved, That we are in favor of greenback currency and reform, which is of course, for Tilden and Hendricks.

## The American People.

No people in the world suffer as much with Dyspepsia as Americans. Although years of experience in medicine had failed to accomplish a certain and sure remedy for this disease and its effects, such as Sour Stomach, Heart-burn, Water-brash, Sick Headache, Costiveness, palpitation of the Heart, Liver Complaint, coming up of the food, low spirits, general debility, etc., yet since the introduction of GREEN'S AUGUST FLOWER we believe there is no case of Dyspepsia that can not be immediately relieved. 30,000 dozen sold last year without one case of failure reported. Go to your Druggist, J. W. Harrah, and get a Sample Bottle for 10 cents and try it. Two doses will relieve you. Regular size 75 cents.

## MARRIAGES.

AMIS—WATERS.—On the 3th inst., in Shelby county, Kentucky, Mr. T. W. Amis of this city, to Miss Annie O. Waters, of Shelby county.

We extend our congratulations to the loving couple who have united their destinies, and hope happiness and prosperity may ever crown their way as they travel on life's rugged path.

**To Shake, or Not to Shake.**  
Aye, that is the question. Is it better to quiver from the pestilence of the malarial fever, or to banish the atrocious disease by a course of that standard anti-fertile remedy, Hostetter's Bitters. There can be much doubt as to the response of the malarial-stricken to this inquiry. From every locality on this continent whose inhabitants are tormented with the shivering plague comes an increasing demand for this genuine preventive and eradicator of malarial fever by science. The denizens of fever and ague districts well know how utterly inadequate do more than give brief respite, and the ex-celled remedies of the faculty—Quinine, arsenic, bismuth—what are these but poisonous poisons, which cause after a time to produce a more violent effect than ever, and if persisted in work irreparable mischief upon the system? Everywhere they are being abandoned by intelligent persons, and that genuine remedy, Hostetter's Bitters, substituted in their place.

—AND—

**"VANDALIA LINE"**

If you are in a hurry this is the route to travel.

A FACT TO REMEMBER IS THIS! KNOW! Passengers should bear in mind the all important fact that the Vandalia Line connects St. Louis, Kansas, Texas, the West and Indianapoli, Cincinnati & Lafayette La. R. and the Vandalia line is the ONLY LINE running direct from Cincinnati to St. Louis, Texas, Kansas, etc., and offering exclusive accommodations of the travel between those cities.

On nights of the week, passengers starting from Cincinnati have no choice of location in their cars, because the Vandalia Line is so well known to the traveling public from the East, they having first arrived there by the Great Northern Road, and later on the new Union Depot at St. Louis, arriving there by the Kansas City and Missouri Pacific Railroad.

The Kansas Line is the only line between Cincinnati and Chicago running Pullman Sleeping Cars on nights of the week, and Parlor Cars on other trains.

The T. C. and L. is the old route and the short-cut route to Indianapolis, Nashville, Evansville, Bloomington, Decatur, Springfield, Jacksonville, Hannibal, Keokuk, Iowa, Rock Island, Des Moines, and all towns and places West and North-West, and with its connections from Great Through Lines, ISO miles shorter than any other line from Cincinnati to Omaha, St. Paul, St. Louis, and Portland, Me.

At Indianapolis connections are made with trains from Louisville. Tickets are on sale at Lexington, Knoxville, Chattanooga, and points in Kentucky where a through ticket to the West can be purchased, and where the passenger may stop enroute.

The General Agency Office of the company, N. W. corner Fourth and Walnut streets, Grand Central Station, New York City, and agents depart from the New York Street Depot, Cincinnati. Sleeping Car Berths free of charge.
